# RULES FOR TOP SCORE

- The course will consist of 12 obstacles which can be jumped in any order
- Fences 1 to 11 will be built to differing heights and each will carry a points value ranging from 20 to 120. The 12<sup>th</sup> fence will be a joker fence worth 200 points
- Time allowed is 45 seconds and the time starts when the competitor crosses the start line
- The competitor scores the number of points allotted to each obstacle, provided it is jumped clear. No points are scored for an obstacle knocked down
- An obstacle which is knocked down or displaced for any reason is not rebuilt. This includes the displacement of a lower element in the same vertical plane
- Each obstacle may be jumped twice to score. Jumping, voluntarily or otherwise, an obstacle for the third or subsequent time, or jumping or passing through an obstacle already knocked down or displaced, including the displacement of a lower element, does not incur elimination but scores no points
- Disobediences are not penalised since they decrease the time available in which to score. Following a disobedience, a competitor may either attempt the same obstacle again or proceed to the next obstacle of his choice. A second or subsequent disobedience does not incur elimination but the Judge may retire a competitor if it becomes apparent that repeated disobediences have destroyed all chance of the competitor featuring in the prize list
- The bell is rung as soon as the time allowed is reached. The competitor must then cross the finishing line in either direction to allow their time to be recorded. If they do not cross the finishing line, they are placed last of the competitors with the same number of points
- The number of points allotted to the last obstacle jumped clear will be included in the competitor's score provided the horse has already started to take off at the moment when the time allowed is reached
- Jumping an additional obstacle or obstacles after the bell has been rung is not penalised
- The Joker may be jumped twice to score. If jumped clear, 200 points are added to the score, but if the Joker is knocked down, 200 points are deducted from the score
- In the event of equality of points, time decides
